Features

Ultra Wide-Angle

Huddly GO's 150° wide-angle lens lets you capture everyone in the room, transforming even the smallest rooms into high quality conference suites

Dynamic Light Optimization

Auto-adjusts to your lighting conditions so you'll always look your best, no matter where you are

High Precision Aspherical Optics

Six-element glass lens

SuperSpeed USB

HD 720p 30fps output

Visual Noise Filtering

Bias compensating spatio-temporal filtering with wide area chroma filtering

Real-Time Dewarping

The wide-angle image is dewarped and perspective corrected in real time, rendering a natural, true-life view

Self-Upgrading Huddly Vision Software

Regular updates to our Huddly Vision software mean that with a single click, your camera will continue to improve with new, cutting-edge features

180° Auto-Flip

When mounted upside down, the camera automatically provides the correct view

Embedded Mounting Hinge

Easily attaches to any TV screen, laptop or monitor

Image Sensor

The 16 MegaPixel 1/2.3" CMOS sensor delivers immersive, crystal-clear HD video

Camera Tripod Mount

For flexible mounting on tripods and Huddly mounting brackets

Digital Pan/Tilt/Zoom

Huddly GO has no moving parts, making it compact and silent, as well as more reliable and accurate. Instantly pan and tilt digitally, with lossless zoom up to 3x
